Finance Society – Trailblazing the finance terrain at Raisoni

Our Vision at the Finance Society is to educate each and every student at Raisoni about all aspects of modern day finance and financial institutions.

The

Philosophy

We, at the Finance Society, believe that finance is not just about money but also about evolution and exchange of ideas and strategies. The Society combines educational programmes like seminars, guest lectures and workshops on finance with fun events like games and quizzes. The aim is to equip students with the financial acumen required to succeed in business by providing them with insights on various aspects of finance - Banking, Insurance, Portfolio Management, Derivatives, Credit Rating and other financial services.

AboutUs

The Finance Society is a student run group that endorses Finance as a career opportunity at Raisoni. It thus provides an interface between the industry, the faculty and the students.

The basic objectives of the Finance Society are achieved by building greater understanding of concepts in students. This is done by supplementing classroom teaching through guest lectures and seminars. Live projects are also arranged for application of this knowledge. The activities also include knowledge sessions and mock interviews.

Corporate relationship is enhanced through promotion of interaction and dialogue with the corporate community. This also helps create superior access to career opportunities for its students.
